Hawaiian Topical Dictionary

Hawaiian to English, arranged by part of speech, then by category, then alphabetically.

How to use this book

Each section is a part of speech (pronouns, nouns, verbs, adjectives, and so on), with phrases as their own section at the end. Within a section, words are grouped into categories such as Animals or Motion & Travel, and listed alphabetically. Larger categories are divided into subcategories such as Pets & Farm Animals or Sea Life, with words that fit none of them listed at the end under Other. The ʻokina and kahakō are ignored when alphabetizing.

A word used as more than one part of speech is defined in each section, with a note such as [also v.]. A word that fits more than one category is listed in each, with a note such as [also in Plants]. When a word has more than ten meanings, the first ten appear in the entry and the rest are in the Appendix.

† marks a word spelled with letters borrowed from English (such as b, d, r, s, t, or v), an older spelling style that standard Hawaiian replaces with native letters.
